💼 PROFESSIONAL EXPERIENCE

Sollitude Mountain Resort
Work Experience Program
12/2023 – 04/2023 | Salt Lake City, United States
Improved spoken English in a professional setting while gaining international work experience and cultural exchange.

Banestes ↗
Software development intern
05/2022 – 11/2022 | Vitória, Brazil
Assist in the analysis, development and implementation of software solutions Develop and apply knowledge related to software development, digital transformation and systems integration.

Banestes DTVM ↗
IT Analyst Intern
02/2024 – present | Vitória, Brazil
I actively participate in the design and development of mobile applications focused on the financial market, especially in the areas of investment and data analysis. My responsibilities span the entire product lifecycle—from conducting user research and designing UX/UI interfaces to developing and delivering the final product.I also develop and maintain websites and work with low-code platforms to accelerate application development. Additionally, I lead a team of interns, managing their contributions and ensuring smooth collaboration throughout project execution. My work is user-centered and aligned with business goals, always aiming to deliver impactful and efficient digital solutions.

🎓 EDUCATION

Computer Science
UVV (University of Vila Velha) ↗
2022 – present | Vila Velha, Brazil

🧠 SKILLS

Next.js Framework (React.js / Tailwind CSS)
Built web apps with Next.js using SSR/SSG, dynamic routes, and API integration. Experience with Vercel deployment, performance tuning, and component-based structure.

Figma / AdobeXD
Designed responsive interfaces and interactive prototypes using Figma and Adobe XD. Experience with user-centered design, design systems, and cross-team collaboration.
